 - Trello (65%)

Professional Experience

Senior Software Developer – Bakkasoft

Nov 2024 – Present

- Lead design and development of high-quality software solutions with a focus on scalability and security.
- Architect and optimize system performance, ensuring code quality through best practices and regular code reviews.
- Mentor junior developers and collaborate with cross-functional teams to drive innovation in software projects.

Senior Software Developer – HurryApp

Nov 2024 – Present

- Architected and developed scalable, high-performance backend systems.
- Directed architectural decisions and database optimizations while maintaining stringent security standards.
- Provided technical leadership and mentorship to development teams, improving workflows and overall system performance.

Backend Developer – HurryApp

Nov 2021 – Nov 2024

- Developed robust server-side applications and optimized REST APIs for seamless integration with frontend systems.
- Enhanced performance, security, and reliability of backend services through continuous monitoring and iterative improvements.
- Collaborated closely with design and frontend teams to deliver efficient and reliable software solutions.

Frontend Developer – SplendApp

Jan 2021 – Jan 2022

- Developed dynamic, responsive web applications with a focus on user-friendly interfaces.
- Implemented modern frameworks and technologies to ensure fast load times and high accessibility standards.
- Worked in tandem with designers and backend developers to translate concepts into fully functioning applications.

Backend Developer – Bakkasoft

May 2018 – Nov 2024

- Engineered scalable server-side applications and APIs, optimizing databases and ensuring seamless integration with front-end systems.
 - Focused on enhancing system security, performance, and reliability to support innovative software products.
 - Engaged in continuous problem-solving and collaboration across various project teams.
-

Projects

- **Prayer App:**
Platform: iOS (Swift)
A comprehensive Islamic prayer companion featuring accurate prayer times, Qibla direction, Quran recitations, and interactive community features.
 - **JoePass:**
Platform: Android & iOS (Flutter)
A secure password manager with end-to-end encryption, organized storage, and cloud sync to safely manage digital credentials.
 - **Belajar Tajweed Alquran:**
Platform: Android & iOS (Flutter, Provider)
An educational app designed to help users learn and master Tajweed through interactive lessons and audio guides.
 - **Zekr Allah:**
Platform: Android & iOS (Flutter, Provider)
A daily companion app for Islamic remembrance offering comprehensive Azkar, notifications, and an elegant user interface.
 - **eWallet:**
Platform: Android & iOS (Flutter, Provider)
A secure digital wallet for managing finances with strong encryption, expense tracking, and offline capabilities.
 - **Web Applications:**
Developed several web solutions using PHP, Laravel, and Wordpress including SplendApp, Alhazm Center, Ramada Al Qassim, and Act Egypt.
-
